

## Introduction

A POS machine is the most advanced payment accepting machine. It accepts all kinds of credit and debit card payments and issues receipts along with maintaining transactions. The POS machines have evolved with time and now are more user friendly and advanced. Mswipe offers affordable POS machines for your business.

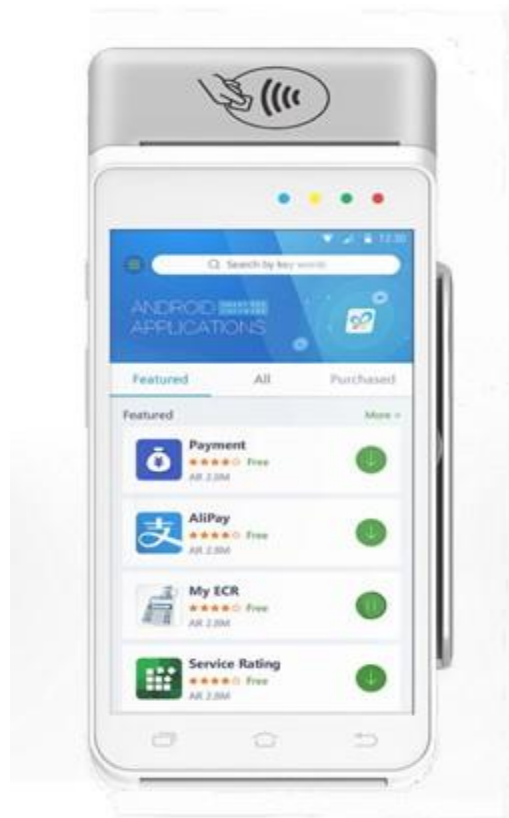

## Features

- Payment processing.

- Sales reporting
- Transaction management
- Inventory management
- Customer relationship management
- Employee management

## Uses

POS system helps in business to accept payments from customers and keep track of sales. It sounds simple enough, but the setup can work in different ways, depending on whether you sell online, have a physical storefront, or both.
